C24 - 021 Overspill Car Park

Members reviewed the offer from the contactor appointed to carry out works to the overspill car park to tarmac the area rather than install decorative gravel. The cost for the works would increase by £15k and would include excavating the site, installing edging and a subbase and two layers of tarmac at a total cost of £24k. Members discussed the financial strength of the supplier to support the 5 year guarantee. It was acknowledged that the standard for the work quoted was sufficient to allay any concerns and the Clerk confirmed that no payment would be made until the work has been to completed to the Council's satisfaction. It was therefore agreed to accept the offer to tarmac the overspill car park.

Resolved: *that the works to the overspill car park should include tarmac rather than decorative gravel at a total cost of £24k.*
